TEXT 1

COCONUT TREE, COCO PALM

01 A thousand years ago, the coconut tree did not even
02 exist in Tahiti. It was the pioneering Polynesians who
03 first brought this plant with them in their migrations. A
04 tree of life in every sense of the phrase, its nut supplies
05 water, milk and edible pulp; its "heart" is eaten in
06 salads; its trunk serves as framework for Tahitian huts,
07 and its palms are woven as roofing.
08 Then, of course, there is the coconut which, when cut
09 in two and dried in the sun, produces oil. Plait three
10 blades of grass and dip into this oil, light... And you
11 have a lamp. A lamp which not so very long ago was
12 still used throughout the islands.
